KYMETA | CONNECT™

DELIVERING THE RIGHT CONNECTIVITY: A COMPLETE END-TO-END SOLUTION WITH BEST-IN-CLASS CUSTOMER EXPERIENCE

Kymeta Connect™ provides internet access on the move with a bundled solution of hardware—Kymeta™ u8 terminal, satellite or satellite/cellular hybrid connectivity plans—Kymeta™ Broadband, and exceptional customer service—Kymeta™ Support. Customers have the option to prepay for the hardware or purchase the bundle as a 12-, 24-, or 36-month plan.

Kymeta Connect delivers unmatched advanced software-defined controls, interfaces, and tools to create the most advanced, user-friendly communications experience in the world.

Kymeta Connect bundle includes:

Kymeta u8 terminal (u8 terminal, u8 flyaway, u8 terminal for military or u8 flyaway for military) and associated maintenance for the duration of the plan term.

u8 GEO TERMINAL

Kymeta Broadband data plan with monthly allocation of gigabytes. Three data plans are available:

HYBRID SAT | CELL	SATELLITE ONLY 5×2 MIR	SATELLITE ONLY 5×2 MIR WITH 256×256 CIR
(for u8 terminal and u8 flyaway)	(for all terminals)	(for all terminals)
1 | 1 GB	1 GB	1 GB
5 | 5 GB	5 GB	5 GB
10 | 10 GB	10 GB	10 GB
20 | 20 GB	20 GB	20 GB
40 | 40 GB	40 GB	40 GB
80 | 80 GB	80 GB	80 GB

Intelsat FlexMove packages available.

Kymeta Support Contract (Essential) provides 24×7×365 customer support, a free 250 MB satellite data allotment per month, and infrastructure support with monthly service fees (hub, MVNO, SD-WAN, and Azure), plus the Kymeta Connect application and related tools as described on the right.
Kymeta Connect is available in 12-, 24- or 36-month plans*.

* Plans do not include any accessories or data overages. At the end of the plan, the customer will own the u8 terminal; yearly maintenance, Broadband, and Support will need to be purchased separately.

KYMETA | CONNECT™

SEAMLESS CONNECTIVITY
- Reliable and robust connectivity in all environments with intelligent wide area network selection
- Cloud-based intelligence at the edge ensures optimized data routing across the network
- Dynamic traffic policies allow you to set your own traffic prioritization and best cost routing

UNPARALLED CONTROL
- Kymeta Connect application provides real-time network metrics, first-level controls, and an installer toolkit
