# Multi-DRM

CryptoGuards Multi-DRM solution for any size OTT operator

The CryptoGuard Multi-DRM Solution offers any size OTT operator to cost-effectively manage content rights towards users and devices from the CryptoGuard head end. The settings of OTT functions such as start over, catch-up, limiting the number of simultaneous devices etc. are easily managed together with the broadcasted live TV streams. The solution supports DRM formats including Google Widevine, Apple FairPlay and Microsoft PlayReady enabling a highly secure content delivery. These DRMs are natively supported by the browser, mobile device or set top box and are approved by major studios.

CryptoGuards Multi-DRM and OTT solution schematic overview
