

# 2,500W Ku-Band Modular BUC/ SSPB/ SSPA Second Generation GaN Technology

SSPA SSPB (BUC) AWMAg-K SSPBMg-K 7000-SapphireBlu<sup>TM</sup> Series 7000-SapphireBlu<sup>TM</sup> Series

### UltraLinear<sup>™</sup> SapphireBlu<sup>™</sup>

- High power density in a compact, rugged, weatherproof package
- UltraLinear<sup>TM</sup>, designed for Multi Carrier Operations
- High Performance GaN Technology SSPA Outdoor design concept
- High Reliability, High Linearity, Low Energy Consumption

### The Ultimate Solution for Direct to Home TV

- Save 8 to 10 dB power compared to Indoor Klystron
- Save Millions of dollars in Energy Cost, Satellite Bandwidth, CAPEX
- Can cover multiple transponders, full DVB-S2 enabled
- Rugged, Weatherproof Outdoor Package,
- MIL-STD-188-164A Compliant
- Built in Redundancy, Field replaceable RF or Power Supplies Modules

- The Highest Linear Power Available. Exceeds all barriers between Klystrons, TWTs and SSPAs
- We can now saturate all transponders of an entire satellite and obtain maximum bandwidth/power efficiency
- 2 years warranty, due to increased GaN Technology reliability
- Backed by over 25 years of Outdoor SSPA design and manufacturing

## 2500W Ku-Band Modular BUC/ SSPB/ SSPA Second Generation GaN Technology
